GooseneckSTYLE LED Post Top Fixture

35 & 50 WATTS

The ALS-PTL is a dedicated-output gooseneck LED post top fixture engineered for area and pathway lighting in commercial, municipal, and residential settings. Experience superior outdoor lighting with our modern gooseneck post light.

Crafted for durability and style, the integrated LED technology provides a powerful, focused beam that drastically reduces energy costs and maintenance, making it a smart and stylish investment. The fixture features a durable aluminum alloy housing with a bronze powder coat finish for long-term reliability and corrosion resistance. Its unique gooseneck design provides architectural styling and effective glare control, while the impact-resistant PC lens ensures uniform, comfortable illumination. The fixture supports Type V light distribution for symmetrical, 360° area coverage and is designed for easy mounting on standard 3" round poles (adapters available for other sizes).

A fusion of form and function, this minimalist LED post top fixture offers a streamlined profile!

Ordering Information

Example: ALS-PTL-35W-5K-V-BZ

MODEL	Wattage
ALS-PTL	35W-5K-V-BZ
	50W-5K-V-BZ
