Color SELECTABLE POST TOP Lantern

30/40/60 or 60/80/100 WATTS
with optional PHOTOCELL

These LED Post Top Lanterns are a versatile, high-efficacy design for area and pathway lighting in commercial, residential and municipal settings. Field-selectable switches allow you to set the fixture to either 30W, 40W, 60W or 60W, 80W, 100W depending which model and select 3000K, 4000K, or 5000K color temperature—streamlining inventory and maximizing flexibility for new installations or retrofits.

As an option, add a photocell, automatically detects ambient light levels, switching the lamp on at dusk and off at dawn, saving energy and providing maintenance-free operation by eliminating the need for manual scheduling or a timer.

Ordering Information

Example: ALS-PTL-LAN-60/80/100W-3/4/5K-V-BK-PC

MODEL	Wattage	Photo Cell
ALS-PTL-LAN	30/40/60W-3/4/5K-V-BK	PC
	60/80/100W-3/4/5K-V-BK

General Specifications

Housing Material	Aluminum	Finish	Black Powder Coat
Lumens per watt	110 LP/W	Power Factor	0.95
Metal Halide Equivalent	30/40/60 175W	Total Lumens	30/40/60 3,300/4,400/6,600lm
	60/80/100 350W		60/80/100 6,000/8,800/11,000lm
Driver	Sosen	LED Chips	Lumileds
Dimming	0-10V Vdc	Color Temperature	3000k, 4000k, 5000K
AC Input	AC 120-277V	Lens Type	Type V
Weight	20 lbs	Dimensions	25.32"x11.8"x11.8"
Outdoor Rating	Wet location/IP65	CRI	≥70
Warranty	5 Year Limited	Luminary Life	Rated over 50,000 hours

Applications

SUMMARY

- Photocell: Turns on at dusk and off at dawn automatically, eliminating the need for manual switching.
- Guides Guests: Creates attractive pathways of light for evening gatherings and entertaining.
- Improves Visibility: Broadens sightlines for drivers and pedestrians, reducing accidents.
- Energy Efficient: Modern LED options offer bright light with lower energy costs.
- Low Maintenance: Durable materials withstand weather, requiring minimal upkeep.
